Our alliance partner Caledonia Water Alliance will carry the out work on our behalf.

13th May 2019

Taking care of your water supply in Edinburgh

What we are doing

We are currently upgrading the water network in your area. This will involve the construction of approx. 7 miles of new water main, which consists of a new twin water main from Hillend to a new pumping station at Torduff in Bonaly. From there a new single main will be constructed to connect into Marchbank Water Treatment Works near Balerno. The work will provide our customers with a greater security of water supply to ensure they continue to enjoy clear, fresh drinking water. To enable us to carry out this work we will need to close a section of Swanston Road, while we cross the road with the pipeline.

When are we doing it

Work will start on Swanston Road on Monday 27th May for approx. 5 days.

What happens next

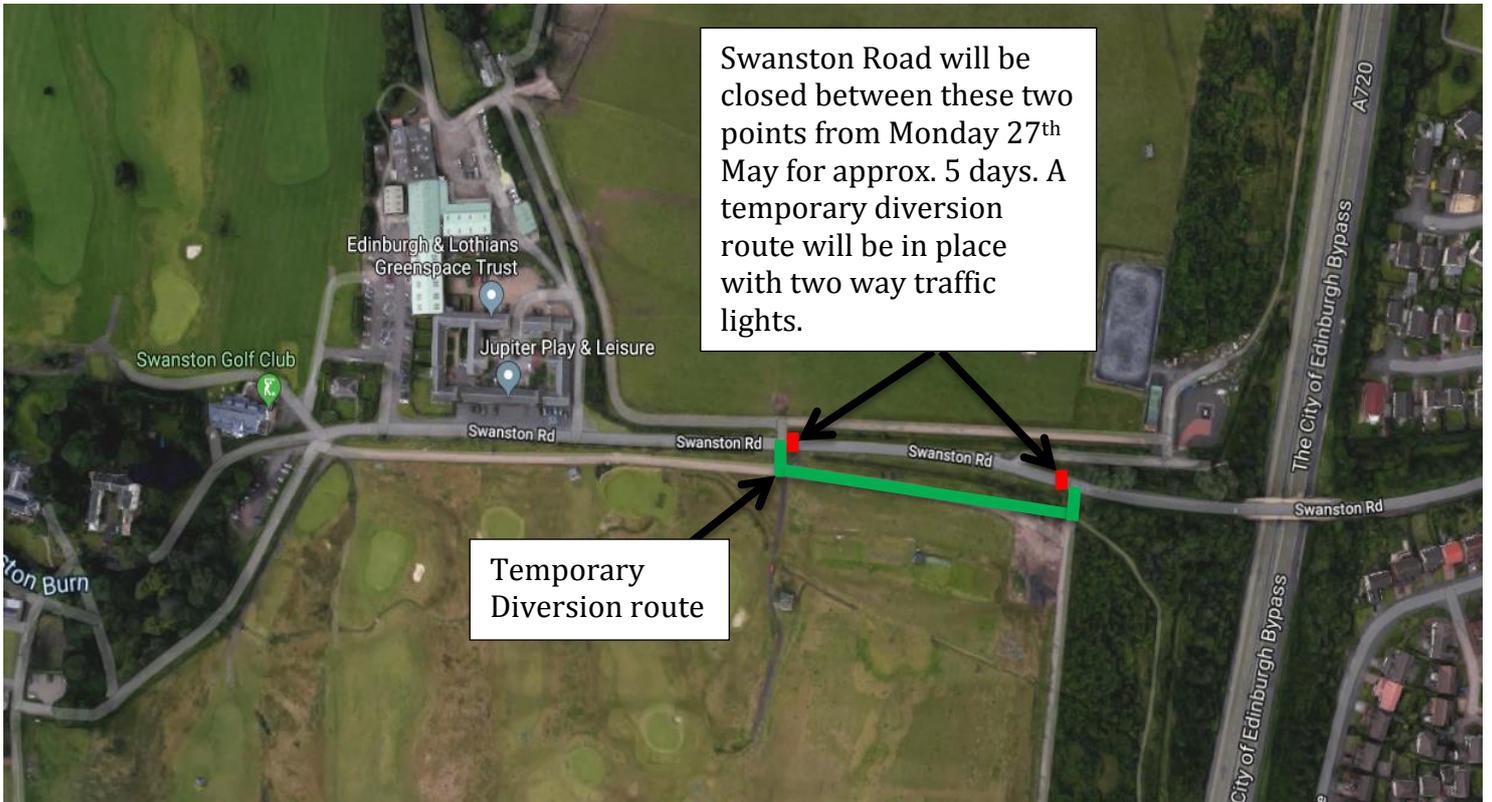

From Monday 27th May work will begin on Swanston Road, this work will involve a road closure. There will be a temporary diversion route with two way lights in place adjacent to Swanston Road to ensure access is maintained for the properties and businesses within the closure

- Attached drawings overleaf show the location of the closure and temporary diversion route.
- During the work you may notice some noise from construction equipment however we will try to keep disruption to a minimum where possible
- For regular updates please visit: www.scottishwater.co.uk/edinburgh

Thank you for your patience while we complete this essential work and see over for details of how to keep up to date with what we are doing in your area.
